Hi Richard - That sounds good - Feb. 24 at 2pm.

Regards,
John

▼ "Richard Poche" ---02/03/2009 10:16:40 AM---Hi John, Would the afternoon of February 24th work best? I've an appointment with the DoD on the morning of Feb. 25. Thanks

Subject: meeting

Hi John,
Hopefully your off to a good 2009. The family is looking forward to your new boss being official next week!

I'll be attending the DoD sand fly meetings again at the end of February. I'd like to meet, if possible, on the afternoon of Monday, February 23, around 2 p.m. I would like to discuss the following topics:

- Addition of prairie dogs to 72500-17 Rodent Flea Bait- FWS contacted me again about adding it to the squirrel label
- Addition of prairie dogs to 72500-13, which currently has California ground squirrels only (efficacy on prairie dogs submitted last year along with blood titer lab study)
- RUP determination for diphacinone at 0.0025% where 0.005 and 0.01% are general use classifications
- Review status of SLN Pharmachem Warfarin, File Symbol 72500-RL
- Rodenticide risk mitigation-general discussion

I'm off to Israel chasing fat sand rats and dodging missiles next week.

Best regards,

Richard Poche
